

Training Workshop on “DNA based barcode analysis for Animal Food Safety”

**9-14 October
2023**

Training Curriculum:

Curriculum includes lectures and hands-on-sessions on the following topics:

- DNA isolation & quantification
- Primer design & PCR
- DNA sequencing and analysis
- Bioinformatics analysis
- Barcode generation

Salient Features of Training:

- Lectures and Laboratory training will be provided by skilled resource persons
- Certificate of participation will be issued to the participants
- Exposure to laboratory safety regulations
