

Medical Students Research Training- Winter Session (MedSRT) 19th – 31st Dec 2022

Centre for Cellular and Molecular Biology (CSIR-CCMB), Hyderabad invite applications from MBBS students (2nd & 3rd years) to participate in a 2-week Medical Students Research Training (**MedSRT**) program. This program is specifically designed for medical students, and it offers training on research methodologies through a series of lectures and hands-on experiments. The students would be also exposed to scientific ethics, good laboratory practices, biosafety and various research facilities at CCMB and its Annexes. Certificates would be issued to students on successful completion of the training.

Along with the application in the prescribed format, applicants must upload a forwarding certificate from HOD/Principal of the University/College/Institute (to download the format for 'forwarding certificate from HOD/Principal of the University/College/Institute' please visit CCMB website), a Statement of Purpose (SOP) for attending this program and a brief biodata.

The last date for receiving application is 20th November 2022.

Since the program involves hands-on training, the maximum limit of participants is 20-25.

Qualified applicants will be informed through email by **22th November 2020**.

The program does not have any fee. However, students have to take care of their travel (accommodation may be available upon request & availability). Canteen services will be available on payment basis during the program.

For any queries, please email to sdp@ccmb.res.in
